SALUTE TO

Pastor H. Quallo, West Orange, N. J. native, is one of the many unsung heroes in public service. Since 1946 "Chico" (nickname) as he is familiarly called, has been one of the many dedicated government employees carrying Uncle Sam's banner in all parts of the world.

In 1948 he became assistant UNRRA representative in charge of vocational and educational training in Jordan, distributing technical and financial aid to this Far Eastern impoverished country, where 530 elementary schools and some 80,000 children are served.

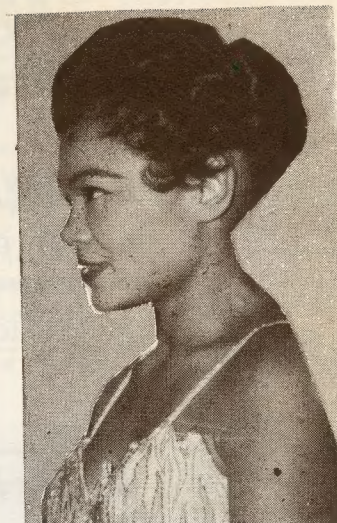

When in New Jersey he visits with his family, the George D. Correns (a sister) of East Orange, and the Lawrence Quallios of Montclair, N. J.

MARION ANDERSON

DOROTHY DANDRIDGE- WILLIAM HOLDEN-

ERTHA KITT

Sharing the Spotlight

MARION ANDERSON—Her ability to storm the citadel of the hearts of the people with song over the years, took her on a 40,000 mile trek lasting 10 weeks throughout 12 Far Eastern countries, as America's Goodwill Ambassador, culminating in appointment to the UN Delegation, recipient of several honorary degrees, and selected as one of the Distinguished Daughters of Pennsylvania. New Jersey residents will have opportunity to discern her greatness when she appears in concert at Orange High School this month, presented by Orange YWCA World Fellowship and Ways and Means Committees, Mrs. Blondine Bruce and Mrs. Caro Soulewski, respective chairmen.

DOROTHY DANDRIDGE—Takes her place along with other Negro artists, who just in recent years have seen progress being made in the cinema for men and women of

color, playing straight roles rather than characterizations. Notable among the year's films creating discussions pro and con, was her admirable performance in the "Decks Ran Red."

WILLIAM HOLDEN—Dedicated cinema artist whose performance in the "Bridge of the River Kwai" together with that of Alec McGuinness, was one of the most memorable of the year.

ERTHA KITT—Her kittenish purrs, her sultry siren singing, and performances like a trouper to the manner born in night clubs and on stage, garnered for her the lead role in the film "Anna Lucasta." High on the list of acknowledgments of her top performance, was her recent presentation at the Court of England to Queen Elizabeth.

EDWARD L. WRIGHT

Esso Refinery, Bayway, N. J. engineer, elected member of Rahway, N.J. Board of Education. Also, among year's achievements he demonstrated the progress his company has made in combating air pollution with an instrument measuring smoke from flare stacks.

John C. Cosby, Pres. of Oranges-Maplewood NAACP Youth Council, Rutgers University graduate, and former resident of South Orange, now living in East Orange with his bride of a few months. John spearheaded the drive in the sale of NAACP Christmas seals in his Council, and acquitted himself well in the area wide sale.

NEW HORIZONS

ROBBIN BAIN

Crowned "Miss Rheingold" of 1959, received the top spot by a plurality from more than 20,000,000 voters. Receives a \$50,000 contract from Liebmann Breweries for her exclusive services. The 22-year-old professional model, native of Flushing, L. I., Bradford Jr. College grad, has worked as commercial artist, portrait painter and summer stock actress.

RAFER JOHNSON

The champion of ancient Greece was the athlete who excelled in all track and field sports. Modern day counterpart is Rafer Johnson of California, who broke all records in winning the decathlon championship last summer in Moscow. His prowess is not limited to athletics, he is president of UCLA student body, and selected as Sports Illustrated "Sportsman of Year" 1958.

DR. MARJORIE H. PARKER

Associate professor of education, District of Columbia Teachers College, heads the nation's oldest and largest Greek letter organization of Negro women. She will administer the two outstanding financial projects voted at the annual conclave in Washington, D. C., which include a \$5,000.00 grant to Dr. R. B. Scott, pediatrics professor at Howard medical school for research on sickle cell anemia, and \$5,000.00 scholarship to Howard University to be administered at \$300.00 annually to students entering Howard University.

Alaska as I saw it

BY—RUTH HURD MINOR

Editor's Note:

A few years ago, few people, with the exception of the wealthy, rarely ventured farther than a hundred miles or so from their own back door. Today everyone unto himself is a traveler—if only through reading.

We are pleased to present in our series of Travel stories, Mrs. Ruth Hurd Minor, Roselle, N. J. school teacher and her impressions of Alaska, the recently added 49th State, which she visited in her recent vacation trip.

BY—RUTH HURD MINOR

Take a land area twice the size of Texas, add vast mountain ranges, glistening snow covered peaks, include fertile agricultural land and lush-green dense forests, fill the waterways with fish, the woods with wild life, deposit in the earth minerals of incalculable value, stir with a progressive, enterprising population—and this is Alaska today.

ALASKA AT LAST! !

Was the greeting sent friends and relatives from Alaska's "First City"—Ketchikan, thriving salmon capital of the world and seat of Alaska's pulp mill, as I completed nearly 9,000 miles of my more than 14,000 mile journey across the United States and into Alaska.

Travelling Companions

My journey started June 20th when my son Elza, Jr., and brother Calvin Hurd, Esq., accompanied me to the airport to board a plane for Sioux Falls, So. Dakota, where I was met by Hope Sabin Bagger of Brooklyn, author, traveller and former teacher, and Elizabeth Babson of Massachusetts, international librarian and traveller; Elizabeth going as far as San Francisco and Hope continuing with me into Alaska.

Mode of Transportation

Before reaching Vancouver, British Columbia, we had trekked 7,700 miles via walking, car, rail, horseback, mule team, plane, canoe, yacht. At Vancouver we took the "Inside Passage" on the "Glacier Queen" boat to Alaska. Nothing matched the cruise aboard ship, which afforded the luxury of big city living, without having to wander too far for dancing, films, wonderful cuisine, interesting and enlightening conversations, solitude and everything that sparks good living.

Arrival and View of the City

Ketchikan fixed in a magnificent sitting on the southwest shore of Revilsegedo, rests on a two-to-three mile deep shelf along the edge of mountains that seem to sheer precipitously into the channel. It overlooks Tongass Narrows on the fabulous "Inside Passage" and nestles against rocky evergreen hillsides in a most picturesque setting. Across the Narrows, Pennock and Gravina Islands offer a panoramic view to the houses built along the mountainsides.

Industries Bring Riches

The city with a permanent population of 7500, rates it as one of Alaska's most promising; it also has the distinction of being the seat of the pulp industry, having a 56 million dollar pulp mill, producing newsprint.

We visited one of the canning factories and watched the salmon from the time it left the boats until canned and labelled. We questioned how the fishermen are paid for their catch.

One fisherman said, "I remember when five of us came in with our five weeks' catch, 50,000 fish and were paid one dollar a fish—a total of \$50,000. Not bad for five weeks' work, eh?" Need I tell our response? Our guide told of his 16 year-old son at sea 10 days, receiving \$500. for his catch.

RUTH HURD MINOR

"There's Gold In Them Hills"

Another incident—when discussing other opportunities with Captain Jim. He related that with two other men, he likes to prospect in the "hills." While looking for uranium, they found only low grade ore. However, continuing the search with their modern equipment including a small plane which lands on glaciers as well as land and water—and on occasion has landed in mud—they found what they considered copper. The assayer assured them it was iron, which meant they must seek a company interested in developing their claim.

Two American companies turned them down, but a Japanese company became interested and offered a three year option. In Jim's own words—"They promised us \$5,000. in 1957, \$10,000. in 1958 and \$15,000. in 1959, and if the claim proved good, they would give us 50¢ a raw ton. Last week we received a letter from the company, and so far they had discovered approximately 34,000,000 raw tons of iron."

Believe me, Jim is a very modest millionaire; all he wants is to continue prospecting.

Sportsmen's Paradise in Thriving City

The thriving city of Ketchikan boasts a daily newspaper, a monthly magazine, a television and two radio stations; a super highway developed north of town in the Clover Pass which has opened up the northern reaches for development. We also found more people own boats than cars.

The town is a mecca for tourists and sportsmen. Curios of every description abound. Totem poles in City Park and in Saxman Indian Village (miniatures offered for sale) are world famous, and the salmon fighting their way up the falls of Ketchikan creek in the heart of the City in August and September—an unforgettable sight.

WE INTERVIEW IRIS KING LADY MAYOR, JAMAICA, B. W. I.

By—SCOTT YOUNG

"Yes, Kingston does have a population of 350,000 people," she repeated as she noticed the look of incredulity that spread-eagled my battered countenance. "Also," she continued, "It has an area of 191 square miles."

Even more astonishing than these statistics is the fact that the Mayor of Kingston, capital of British West Indies, is a woman.

Mrs. King is the mother of three boys and one girl; her husband, Seward H. A. King, is a ship's pilot. Although approaching middle age, her vibrant personality and clear thinking animation, stamp her as "young," very young indeed.

"About the peoples of the West Indies, contrary to travel posters, we have a mixture of races—the English,

IRIS KING MAYOR OF KINGSTON, JAMAICA, MARY SPRINGER

She is Mrs. Iris King, pictured with Mrs. Mary Springer, with whom she relaxed and renewed old friendships in Newark, recently.

Comely, alert, Mrs. King is symbolic of the dynamic leadership so necessary to the progress of the newly formed West Indies Federation in its struggle for a dominion status similar to that of Canada.

She is confident that her people will measure up in the difficult and complex task of self-rule. She said, "Give us opportunity to learn and to participate in industry, commerce, finance and government, is all we ask. We will supply the effort."

No starry-eyed dreamer is she, as she discusses the economy of Jamaica. "We have bauxite ore, Reynolds Aluminum Company has a plant here. Mining of ore for aluminum should be developed into our principal heavy export industry. We feel that here too is an ideal place for a diversity of smaller industries; the manufacturing of clothing, household appliances, etc. Also we would like to have some automobile plants. Our population figures indicate a vast potential buying power. Of course, our chief agriculture exports are sugar cane, rum and bananas. We also have cattle ranches, and we welcome more."

"Our climate and natural scenic beauty make the island ideal for tourists. Presently this is one of our chief sources of income. However, we are aware of the vast economic expansion necessary for a stable year-round economy, and certainly we realize our need for capital investments and assistance from the United States and other major countries. We are not nationalistic ostriches, we need the rest of the world and we want to be participating members of a great free world."

Indians (Far East), Chinese and Jewish peoples. Education, rather than wealth, is the predominant yard stick. We have been told that our elementary education which is free, is equivalent to a high school education in the States. Schools above elementary level require tuition. We are very proud of our University which is rapidly expanding."

Speaking of anglo-phobia, she said, "Baffling to me are the customs in some parts of the United States. Take Louisville, for instance, where I was refused service in an ordinary drug store luncheonette. However, we have too much to do to be bitter, but we think the present U. S. immigration laws which limit only 100 West Indians entrance into the U. S. per year, harsh and unrealistic racism. We feel though that a better understanding of our peoples, our objectives, will bring about a favorable change in attitudes."

Our impression of Mrs. King is, she is truly a woman of action. The infusion of her vision and courage into the veins of her brothers and sisters in the United States would certainly help to stimulate some of our more lethargic citizenry to constructive thinking and action.

REVEREND LOUIS C. BERRY

A bulwark in the community three decades where he has gone about his duties as Rector of St. Philip's Episcopal Church, Newark, seeing the fruition of his labors well rewarded, when hundreds of parishioners and friends aided recently in the 110th anniversary celebration of the church.

Perhaps no man of the cloth has given more generously and unselfishly of time and effort to worthy community causes; it may be for this that the years have dealt kindly with Father Berry as he is affectionately called by persons outside as well as inside his parish.

Determination, perseverance are attributes which young Franklin Banks, Jr. of East Orange, N. J., possesses in abundance of. As a youngster he had a goal—to become an undertaker. Interruption of his plans by World War II in which he had an outstanding record, Bronze Star, etc., served only to intensify his burning desire. After the war, graduation from the McAllister School of Embalming, apprenticeship with Enoch Churchman, and opening the Franklin Banks Memorial Home, were milestones attesting to his successful efforts. Diminutive Frank lives his busy life to the hilt, father of two youngsters, Franklin, Jr. and Celeste Yvonne, the possessor of a good tenor voice, he is active in the Bethany Baptist Church choir, Guyton-Callahan Post American Legion, Ruffner Chapter 75 DAV, St. Paul's Lodge Knights of Pythias. His charming wife Mattye, public school nurse, devoted efforts to Frank's aims, are similarly herculean. He resides at 146 South Grove Street, East Orange. No finer examples of young progressive leadership are to be found in this area, than that of Franklin and Mattye Banks.

Club World! Club World! May I say unto you
I know God blesses you for the work you do.

Faith, Hope, Charity and Love, you full-feature all
And all respond splendidly to your journalistic call
O Club World! Club World! May God speed you ever
And on the path of Progress, tread it ever and ever.

ED. NOTE: At least you understand what we are trying
to do as a community service. Our thanks, Mr. Maxwell,
pioneer in journalism, long time newspaper man, and feature
writer, now retired.

WILLIE GALLIMORE

TOM HAWKINS

Space does not permit tipping our hat to but just a few of the outstanding athletes.

WILLIE NAULLS of the New York Nicks has come into his own this year. Ability to snare rebounds and score effectively has proven his value to the team.

WILLIE GALLIMORE half back of the Chicago Bears, a veritable galloping ghost. Time and again amassed respectable yardage totting the pigskin to pay dirt.

TOM HAWKINS, great forward, leading scorer and rebounder of Notre Dame has propelled the Irish to the quarter finals of N. C. A. Ranks with the greatest ever out of South Bend.

ALL-AMERICA

ORLANDO CEPEDA, Giant's first baseman, "Rookie Of The Year". Hit over 300 and drove in over 100 runs. Speed and power presages a great career for Cepeda.

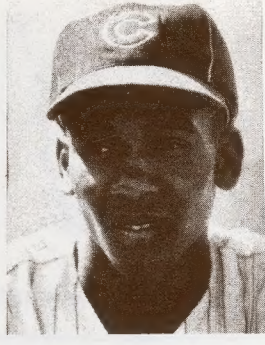

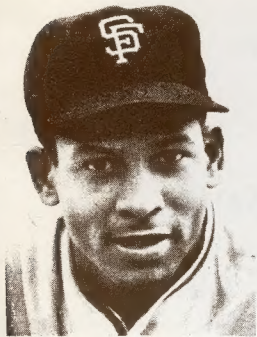

DICK BASS, half back of The College of the Pacific, compiled a phenomenal running record this season. Even against larger schools he was hard to stop. On a par with the best in the nation.

ERNIE BANKS, Chicago Cubs shortstop, agile with the whip lash wrist action, was the "Home Run King" of the majors in 1958, with 41. His performance was the brightest ray of sunshine for the fans at Wrigley field. Fans look forward to Ernie's reaching the 50 home mark before long.
